

Uday Posia

ARCHITECT · AUTOMATE · GOVERN

Regina, SK · udayposia@gmail.com · [linkedin.com/in/udayposia](https://www.linkedin.com/in/udayposia) · posiauday.github.io/myPortfolio

5+ years architecting Power Platform and Microsoft 365 solutions for the public sector — secure, scalable applications, automation, data, analytics and governance, from discovery through long-term operations.

EXPERIENCE

Senior Programmer Analyst

Jun 2023 – Present

Government of Saskatchewan — Ministry of SaskBuilds and Procurement · Regina, SK

- Architected an end-to-end project management application in Power Apps, giving Project Managers scalable tools to oversee the full project lifecycle.
- Engineered ministry-level Power BI dashboards using paginated reporting and complex DAX to surface financial and project KPIs for executive leadership.
- Automated Ministry of Justice workflows with Power Automate, eliminating manual courtworker tasks and lifting productivity by over 35%.
- Established Power Platform governance with Microsoft Purview and DLP policies, securing the data lifecycle across the ministry environment.
- Partnered with executive leadership to translate complex requirements into scalable architectures, driving high user adoption.

Configuration Analyst

Jul 2022 – Jun 2023

Government of Saskatchewan — Public Service Commission · Regina, SK

- Built rich SharePoint sites integrating Power Automate and Power BI to enhance functionality and user experience.
- Drove continuous improvement that boosted SharePoint performance and business adoption across teams.
- Gathered and analyzed requirements with stakeholders and SMEs, ensuring policy, legal, and contractual compliance.
- Delivered expert support for MIDAS (HR Payroll Oracle System), configuring and testing changes with zero payroll disruption.
- Led onboarding and knowledge-transfer sessions for new hires.

Junior Developer

Jan 2021 – Jun 2023

University of Regina Students' Union · Regina, SK

- Provided Tier-2 support across critical business applications, ensuring uninterrupted operations for students and staff.
- Built an internal admin portal in PHP and MySQL, cutting administrative workload by 30%.
- Automated web-scraping scripts feeding dynamic dashboards for real-time, actionable insights.
- Managed the CampusGroup platform end-to-end, resolving issues and shipping feature enhancements.
